

# Kushagra Institute of Information & Management Science (KIIMS)

## College Information

**KIIMS** established in the year 1998, is engaged in Computer Education, Management & other developmental programmes in the state of Orissa. The college has been reaching to greater heights over the years under the leadership of **Rtn. J. B. Padhi** (A man with vision and mission).

The institute prepares its Degree & Master Degree students for challenging careers through very rigorous teaching, training in an integrated approach. The innovative teaching-learning methodology ensures thorough grounding of students in various fields of computer science, management and concurrently develops in them the requisite pragmatism to test and apply these concepts in real life. It, being a self-financing technical institution, has graduated its students in a uniform pattern of living with zest providing co-education, impervious research value and awareness among students.

KIIMS is situated in a picturesque 10 acres area of campus. The campus has splendid buildings for each department fully equipped with all modern gadgets in respective labs. KIIMS is an ecological management institution that inexorably propels you to that greatest lamp in the east, with the help of which one can easily step on to that platform from where he visualizes his career with total clarity and is able to appreciate the fulfillment of life through technology & management.

The Institute is located in Cuttack and 15 km from Bhubaneswar. Bhubaneswar is the capital of Orissa where one can see the stamp of architectural planning with greenery all around having excellent communication network by road, rail & air. This has been a major tourist attraction for both domestic & international tourist.

The college is affiliated to **Biju Pattnaik University of Technology (BPUT) Orissa** and **Utkal University, Bhubaneswar, Orissa**.

## Facilities-

### Lab, Research & Trust

**KIIMS** is one of the most technologically intensive campuses in India. We are trendsetters in information resources. We have made a commitment to deliver outstanding information resources and the latest information technology to the students.

KIIMS is established for imparting innovative academic programmes having direct relationship with the market force of the country, especially in the field of IT & Management. It visualizes a disciplined academic environment together with need-based opportunities for its students in areas like Personality

KIIMS is established for imparting innovative academic programmes having direct relationship with the market force of the country, especially in the field of IT & Management. It visualizes a disciplined academic environment together with need-based opportunities for its students in areas like Personality Development, Communication Skill and on the site training pertinent to our industrial requirements. This is the first model college of its kind that has been established about six years back with limited teaching learning programmes over the years.

KIIMS started offering its flagship management science and IT programmes which are very intensive programmes in different specialization fields. It has been consistently providing quality education because of its strong faculty strength and has been leaving its mark in every sector of the Indian economy.

With the onset of Liberalization, Privatization & Globalization (LPG) in the early nineties, sweeping changes took place in the Indian economy. The Indian economy opened up to a healthy competition from global players and particularly the Finance, Banking and Insurance sectors underwent a tremendous revolution. Against the backdrop of these radical changes and developments, KIIMS felt the need for specialized training in various areas of Management & IT for the young aspirants.

Our intake of the students is through an entrance test and as per the guidelines of the University. We believe, we groom our students to take up managerial responsibilities in the corporate world. Since the day of establishment KIIMS has groomed world-class managers who are involved in the development of the nation. This year students have started to show greater interest in the personality development programmes conducted by our college to provide them extra insight and edge to perform better in the campus drives.

## Department of Training & Placement

### Training & Placement Activities

The Training & Placement Department caters to the industrial training, needs of students and also provides placement service to students through campus interviews.

Placement is the acid test for any professional training institution. KIIMS has passed this test, as more & more blue chip companies making a beeline for KIIMS students. KIIMS leaves no stone unturned in preparing its students to meet the changing needs of the industry. Facilities offered to the students are futuristic.

Our Training & Placement Department takes pride in offering the students' service like consultation on a wide range of issues such as employment, career planning opportunities etc., & thereby preparing students effectively for their career.

The department prepares students to cater fully to the entire needs of different industries and consultancy activities. We are approaching the industries every year to absorb our students for placements in their industries.
